DETAILED ACTION

Claims 1-65 are pending in this application.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Response to Restriction

Applicant's election with traverse of Group I, claims 1-53, drawn to compounds of

formula I and the species of, 1-(3-[2-(1-isopropyl-piperidin-4-yl)-biphenyl-4-yloxy]-propyl)-piperidine, compound appearing first in claim 47.

The traversal is on the ground(s) that each of the elected Group could be extended to other groups without imposing an undue burden on the Examiner. This is not found persuasive because each of the various Groups is directed to art recognized compounds which are different from each other and, are capable of supporting their own patents. Moreover, the examiner is required to conduct a commercial data base search on the class and each subclass. This would be an undue burden on the examiner.

Therefore, the restriction requirement in paper No. 6 is still deemed proper and is made FINAL.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicants preserve their right to file a divisional on the non-elected subject matter.

Status of the Claims

Claims 1-65 are pending in this application. The generic concept of the elected subject matter is follows:

Compound of formula I, of claim 1, wherein

R_a and R_b taken together with the nitrogen to which they are attached form a six-membered heterocycle

R_1 is hydrogen or halogen

R_2 is piperidine

R_3 is phenyl

n is 0-4 ..

As a result of the election and the corresponding generic concept identified, the remaining subject matter of claims 1-65 and are withdrawn from further consideration pursuant to 37 CFR 1.142 (b) as being drawn to non-elected inventions. The withdrawn subject matter of claims 1-65 is properly restricted as it differs materially in structure and in element from the elected subject matter supra so as to be patentably distinct there from.

Objections

Claims 1-53 are objected to for containing non-elected subject matter. Claims drawn solely to the elected invention as identified supra, would appear allowable. Group II, claims 54-65, drawn to methods of use would be allowable along with the elected invention and commensurate in scope therewith.

The claims must be amended to exclude non-elected subject matter and within the limit of elected compounds of formula I.

Telephone Inquiry

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kamal Saeed whose telephone number is (703) 308-4592. The examiner can normally be reached on Monday-Friday from 8:00 AM – 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Joseph K. McKane, can be reached at (703) 308 4537. The unofficial fax phone for this group are (703) 308-4556 or 305-3592.

When filing a FAX in Technology Center 1600, please indicate the Header (upper right) "Official" for papers that are to be entered into the file, and " Unofficial" for draft documents and other communications with the PTO that are not for entry into the file of the application. This will expedite processing of your papers.
